

PORTLAND CHILDREN'S DENTISTRY

COVID-19 office changes

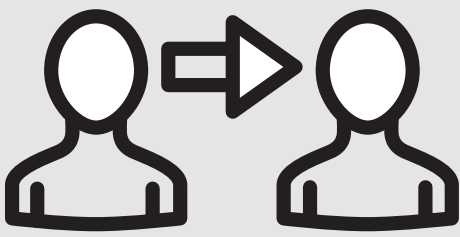

1

PROTECT YOUR HEALTH

Please wear a mask to your child's appointment. If you do not have a mask, we have masks that we will provide.

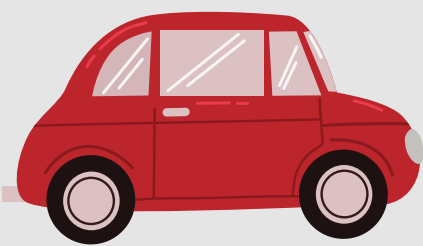

All of our team members will have masks on for your safety and ours.

2

SOCIAL DISTANCING

For everyone's safety, we are abiding by social distancing protocols. To minimize the number of people in the office at any given time, our appointment times are longer and we have a one-parent no-sibling's policy. Please arrive to your appointments on time, as early or late arrivals may not be able to be accommodated.

3

NEW CURBSIDE CHECK-IN

You will receive a text message approximately 20-30 minutes prior to your appointment time. When you arrive, simply stay in your car and text us to let us know you have arrived. Once we are ready for you we will text you to come in.

4

HAVE YOU BEEN EXPOSED?

If you have had a know exposure to Covid-19 or are experiencing any cold or flu like symptoms please call our office before your appointment. We will be checking your temperature at the office once you arrive and offering you hand sanitizer.

5

EXTRA CLEANING MEASURES

In addition to our already stringent cleaning standards mandated by the CDC and OSHA, we have added a HEPA air filtration system and UV lights in strategic locations throughout the office.

6

KEEPING YOU SAFE IS OUR #1 PRIORITY

Our ultimate goal is to provide you with the cleanest and safest environment possible. We are excited to see you all very soon!
